EXPERIMENT 4

ROLL NO: 240701804 NAME: ROHITH R

Create a prototype with familiar and unfamiliar navigation elements. Evaluate ease of use with different user groups using proto.io

AIM

To create a prototype with familiar and unfamiliar navigation elements and evaluate ease of use with different user groups using **Proto.io**.

TOOLS USED

- Proto.io (for UI prototyping)
- Mobile / Web Browser (for testing)

PROCEDURE

1. Open **Proto.io** and create a new project.
2. Design multiple screens (Login, Home, Chat, Profile, etc.).
3. Add **familiar navigation elements** like:
    - Back button
    - Search icon
    - Hamburger menu
4. Add **unfamiliar or missing elements** like:
    - No back button
    - Hidden options
    - Missing labels
5. Link screens using interactions (navigation flow).
6. Share prototype with different users:
    - Beginners
    - Intermediate users
    - Experienced users
7. Ask them to perform tasks (login, navigate, send message).
8. Observe:
    - Time taken
    - Errors made
    - Confusion level
9. Record feedback and compare usability.
