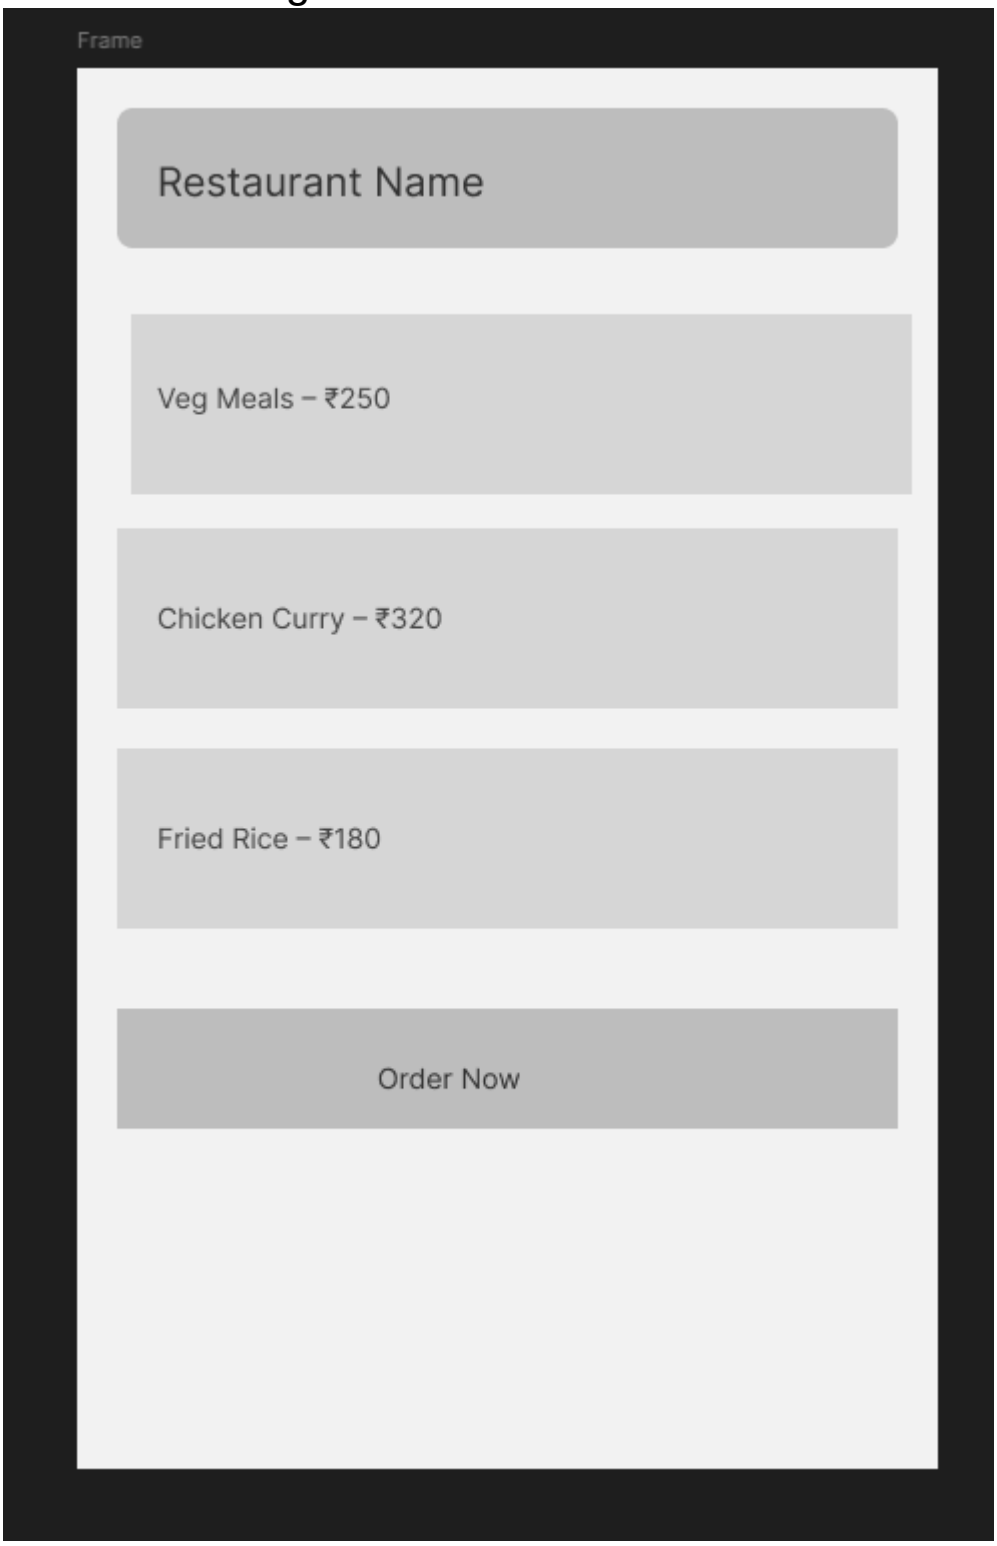
EXPERIMENT 1

ROLL NO: 240701804 NAME: ROHITH

Old UI Design



Old UI Design

Features & Drawbacks Identified:

- **Plain & Outdated UI:**

  - The interface was very simple with grey color blocks.
  - No images of food items were used.
  - The overall design looked dull and unattractive.

- **Poor Visual Appeal:**

  - Menu items were displayed only as text (Veg Meals, Chicken Curry, Fried Rice).
  - No food images or icons were used.
  - The screen did not create excitement for ordering.

- Low Readability & Spacing Issues:

  - Font style was basic and not visually attractive.
  - Spacing between menu items was minimal.
  - The design looked flat and less engaging.

- Weak Visual Hierarchy:

  - Restaurant name was not highlighted properly.
  - Prices and item names looked similar in size and style.
  - The “Order Now” button did not stand out clearly.

- Basic Button Design:

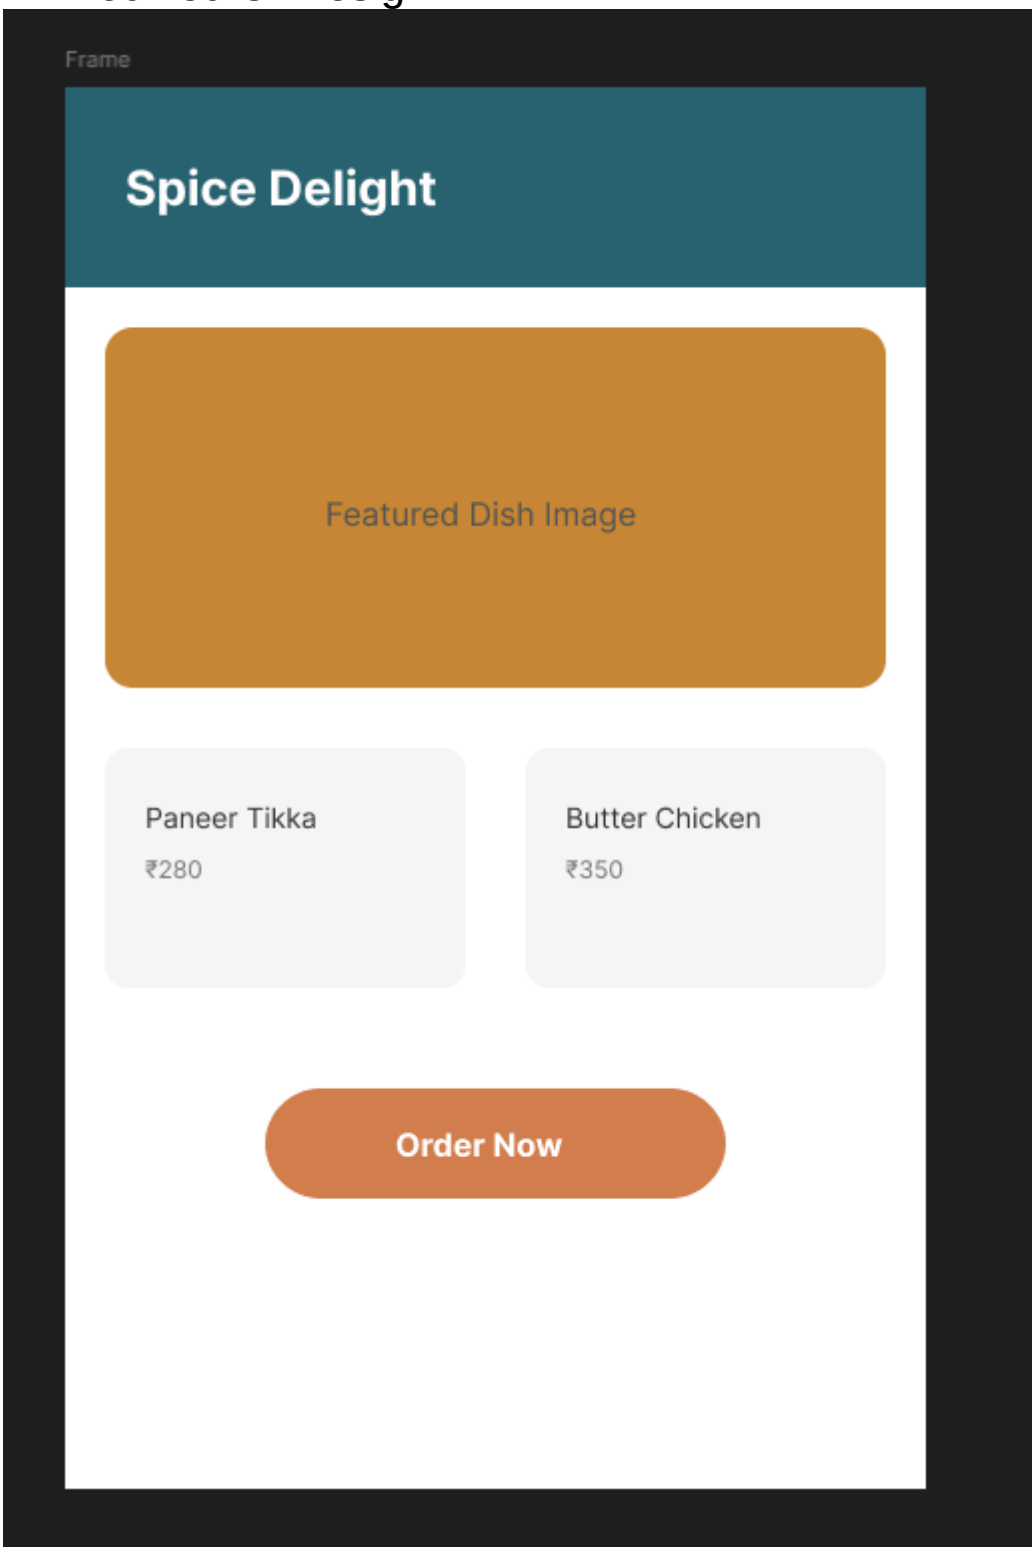
  - The “Order Now” button was simple and inactive-looking.
  - No color contrast was used to attract users.

- Less User Engagement:

  - No featured dish section.
  - No modern layout like cards or grid structure.
  - The UI did not encourage users to explore menu items.

.

Modified UI Design



Modified UI Design

Features & Enhancements:

• Modern & Attractive UI:

- A clean and colorful design is used.
- A proper restaurant name (Spice Delight) is displayed clearly at the top.
- The interface looks fresh and visually appealing.

• Featured Dish Section:

- A large featured dish image section is added.
- This highlights special items and improves user interest.
- Makes the app look professional.

• Visual Menu Cards:

- Food items (Paneer Tikka, Butter Chicken) are displayed in card format.
- Each card shows item name and price clearly.
- Card layout makes selection easier and more attractive.

• Improved Typography & Spacing:

- Larger and clearer fonts are used.
- Proper spacing between sections improves readability.
- Layout looks clean and organized.

• Strong Visual Hierarchy:

- Restaurant name is clearly highlighted at the top.
- Prices are neatly placed under item names.
- “Order Now” button stands out with bright color and rounded design.

• Enhanced User Interaction:

- Attractive call-to-action button encourages ordering.
- The design provides a smooth and engaging food ordering experience.
